See request below from Marietta. I'm thinking a short paragraph should do it, and we might have some citrus-greening related benefits language already associated with other chemicals. Monisha, what do you think? Would this be a heavy lift, or do we have drop-in-type language we can email RD?

Thanks!

Ex. 5 Deliberative Process (DP) but we have a meeting with the team later this morning and we will discuss how we plan to address this in the label and the decision document.

Please advise if you would like us to do anything else.
